RELATIONSHIPS WILL STRUGGLE IF...

- You are accountable to no one.
- Your opinion is always more important than the opinion of others.
- You are quarrelsome.
- You find it difficult to be a team player.
- You are always right about everything.
- You find it difficult to say “I’m sorry” without defending yourself or blaming others.
- You refuse to take help.
- You are unteachable.
- You are unable to recognize others’ accomplishments or rejoice in their successes.
- You unable to say, “I’m hurting; I’m in trouble,”
- You never reverse your path when wrong but make only minor adjustments.
- You always think, this message is for someone else, not me.

YOU CAUSE OTHERS TO FALTER WHEN...

- You allow negativity to grow.
- You compromise your integrity.
- You break your promises.
- You speak before thinking.
- You act out of greed or selfishness.
- You refuse to forgive.
- You twist the truth.
- You justify your behavior.
- You hurt others.
- **You leave God out of your decisions.**

Life is difficult enough, why do we add to the turbulence. Loving others will bring joy, show compassion, and set a great example for those around us. Love requires making sacrifices. Are you willing to make those sacrifices daily?

Steven & Shirley Lee and Judy Swindall

110 Reinke Road

Residents since April 2024

Steve and Shirley were married on May 27, 1989, in North Vernon, IN. They have 6 children, 17 grandchildren and 3 great grandchildren. Their family also includes their Siamese cat "Ty".

Steve and Shirley relocated from French Lick, IN.

Steve and Shirley traveled in a 5th wheeler for 5 years. They travelled to Arizona, Texas, Mexico and Canada. They then decided to settle in a home. After checking out several communities on Zillow they found Lake Hammock Village. The beauty and friendly residents impressed them.

Steve was in quality control at Kimball Piano. He currently is employed at FED X and works in quality control. His hobbies include his present job and working on his computer at home.

Shirley was employed as a Home Health Aide. She enjoyed working with the Mental/disabled individuals. Shirley worked for 18 years in that field. She then worked for 6 years to assist bariatric patients.

Shirley's hobbies include going to flea markets. She especially enjoys visiting Auburndale looking for purses. She also likes playing video games. Steven and Shirley's "bucket list" includes travelling to Hawaii and Alaska.

Judy Swindall

Shirley Lee

Steve was not available for a picture

Steve and Shirley asked her sister Judy Swindall to move in with them.

Judy Swindell soon arrived; she also enjoys Lake Hammock Village. Judy would love to find employment and enjoys working as a Home Health Aide. She has her CNA certificate. Judy also had worked as a cook at a mental health facility.

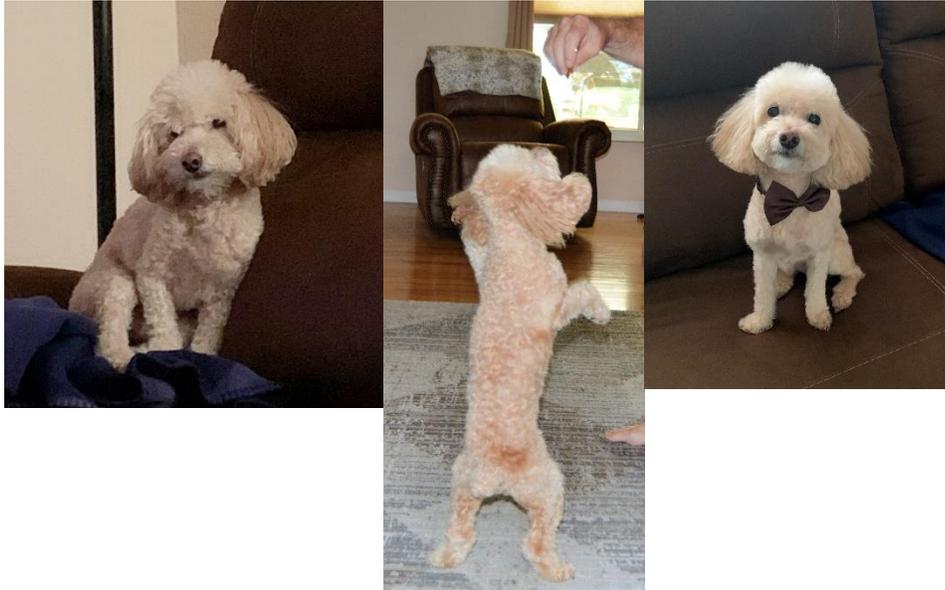

Judy has 2 children which both have passed.

She has 4 grandchildren and 5 great grandchildren. Her family also includes her dog, Miss Ivey.

Judy is not interested in sports therefore has no favorite team. She loves to play bingo and challenge her sister on video games. Her favorite thing to do is work.

ROLLY

By: Linda Casinover

Rolly is a Yorkipoo sometimes called Yorkie Poo, Yorkie-poo or Yoodle. They are a small hybrid dog breed, a mix between a Yorkshire Terrier and a toy or miniature poodle. The female pups tend to take after the Yorkie side with boys more like poodles. They grow to be about 4 to 13 lbs. with Rolly being a healthy 10 lbs. at 13 years old.

Rolly comes from Independence, Missouri where he chose his humans. While they were out looking to adopt a dog for their daughter, Rolly decided that if his brother Buddy was being adopted by them, he wanted to be too. To get their attention he began rolling around on his back like crazy and was so adorable that they couldn't resist. It worked! He found his forever home and was instantly named Rolly.

Yorkipoo's are known to be friendly, intelligent and easy to train which is certainly the case with Rolly. He has a great personality and loves people. He used to love to chase squirrels, cats and bunnies, but now is content sitting in the chair under the living room window watching everyone walk by. Outside you would be greeted by this joyful little guy with his ever-wagging tail.

He also likes his walks around the block and is looking forward to his human father taking him for a ride in the basket of his bicycle soon.

Although Rolly is a small guy and getting up there in years, he has the energy of a puppy. He is a great eater and loves his treats. He is also a great dancer, having been trained to dance when tempted with a treat above his head.

This breed is not typically used for security purposes, but this guard dog alerted his humans to my presence before my foot hit the driveway concrete. Once I was seated, ever loyal Rolly sat on my lap for a very quick inspection before returning to the comfort of his human mother's lap.

Rolly exudes joy and I suspect is the King of the Castle.

Rolly lives with his humans, Ellie and Larry Quinter of 202 Glen Este Ct.

**** Stephen Ministry ****

Several months ago, it was mentioned in our LHV Facebook page that there was a need for someone to speak to during a grief process or other concern.

I recently trained, certified and graduated from the First Presbyterian Church here in Haines City as a Stephen Minister.

This ministry provides emotional and spiritual support to people who are going through a difficult time such as divorce, grief, hospitalization, unemployment, terminal illness, relocation, chronic illness or loneliness. All information and contact is handled in the utmost confidence.

I have placed brochures in the clubhouse for your review along with the phone number of the church. Please ask for Paulette Hendrickson, Care Receiver Coordinator, or you may contact me for more information.

Preparing for Hurricane Season 2024:

AUGUST - MONTH THREE

Time to Get Serious about

Hurricane Planning:

Peak Season is Coming – Be Prepared!

By

Dave Graham,

HOA Emergency Preparedness Team / August 2024 Gator Tales

It is hard to believe, but the first third of hurricane season is over, but four more months of danger remain! As we enter **Month Three** and **move into Peak Season**, **it is time to take whatever steps are necessary to protect yourself from the near certainty that we will see some bad storms coming our way soon.**

Everyone has received the information the Team has provided. As we suggested last month, **please take some time to look over this information and think about what choices you would make when a hurricane threatens us.** Unlike minor decisions which we make every day, our decisions regarding hurricane preparation affect our health and safety. So, it is important to take a close look at this and plan accordingly. Last August the Team listed recommendations in its monthly article and again recommends the following:

Before a hurricane threatens you, consider these suggestions:

- * Realize that you will probably have two or three days to make important decisions. This is better than a tornado which has zero notice! You will have some time. Be sure to use it well!
- * **When a 'Hurricane Watch' is issued, this means a storm is expected within 48 hours.**
- * At that time our Team will schedule a Special / Emergency Meeting and post signs for all to attend if interested – also will be posted on Facebook.
- * The time to **'start thinking about things'** is **now** – before the storm arrives!
- * Now is the time to stock up on supplies, such as water, batteries, peanut butter, tuna fish, and other non-perishables. These disappear quickly from store shelves when a storm is forecasted.
- * Everyone should **have a Plan** for when a storm is coming – and history tells us that this will come at some point during the season.
- * You have received a Shelter Map. Look at it! If all else fails, you can go to a public shelter.
- * To get started – try to identify what you would do. Do you plan to stay with family or friends? **Remember that family and friends are also dealing with the same hurricane situation! They may mean well, but conditions may prevent them from getting to you. Traffic on I-4, Route 27, and most Florida highways is slow, unreliable, and unpredictable, and can be a disaster in itself!**
- * **Don't rely on others! YOU ARE ULTIMATELY RESPONSIBLE FOR YOUR OWN SAFETY!**
- * Have a plan! And consider a backup plan too!
- * Do you plan to 'stay and ride it out' on your own? If so, make sure you have food supplies and that **all your outdoor decorations (flags, lights, statues, etc.) are removed or tied down for the protection of you and your neighbors. Be a good neighbor and take care of this.**
- * **REMEMBER:** Once you decide to stay and the hurricane hits, you will not be able to leave, and no police or others will come during the storm! So.....when you decide, be sure to understand that you will not be able to leave until the storm is over – and be prepared for this.
- * Do you plan to leave for a more secure location, such as a hotel?
- * See the **Hurricane Evacuation Planning Guide** which was put together by **Team Member David Rawson** in this issue of Gator Tales
- * **NOW is the time to look into these things! Don't procrastinate!**
- * If you have a pet, most hotels charge a **Pet Fee**, and many do not allow pets.
- * For informational purposes, the Team had put together a **Hotel List 2022**. **Due to lack of volunteers this has not been updated for 2024. This is a huge undertaking and something the Team would**

like to update if there are volunteers interested in working on this. The 2022 list is available as a reference and may be helpful in current form. **One consideration when contacting hotels is to be sure to ask if they have a generator. Many smaller hotels do not, which means you will have no electrical service during outages but may be in a very safe building. This is very important so be sure to ask this! Larger hotels and hotel chains have generators.** For an e-mail copy, contact a Team Member or the Team Coordinator below.

Bottom Line Recommendations:

1. Be ready for anything that might happen
2. Think about things in advance
3. If you have questions, contact a Team Member

Team Notes:

- * Keep an eye on the weather. An excellent source is the National Hurricane Center at <https://www.nhc.noaa.gov>
- * The Team meets monthly or as needed when weather threatens. All are welcome.
- * The Team is offering the **Generator Assistance Program** again this year. **Many residents use medications which must be kept cool or refrigerated. In times of power outages this is a big problem. The Team has identified a number of very generous individuals who own generators and are willing to share them to help those in need.** They may also help to **store food during power outages, help residents to charge cell phones and other items, etc.** If you have a need or want more information, contact your Zone Representative or the Team Coordinator. The Team is very proud of all the generous owners who have agreed to help fellow residents.
- * The Team welcomes anyone interested in joining. Just contact any of our members for more information.
- * The Team thanks the HOA for its continued support.

Hurricane Evacuation Planning Guide

Prepared by David Rawson:
Member of the HOA Emergency Preparedness Team

Items to Load for Evacuation to Shelter:

- Emergency food and water supply
- Emergency medicine supply
- Emergency power sources such as flashlights (don't forget extra batteries)
- Safety and personal items
- Important documents, including medical documents, wills, passports, and personal identification
- A fire extinguisher
- Map to shelter

Further Recommendations:

- **Map to shelter:**
Test drive to shelter to familiarize yourself with route. If you have GPS pre-load address
- **Collect and position Emergency food and water supply:**
Locate for easy access
- **Collect and position Emergency Medicine:**
Set in small bag for easy access
- **Collect and position Emergency power sources (batteries & flashlights):**
Check flashlight and battery status

- **Collect and position Safety and Personal Items:**
Toiletries and items in easy to grab bags
- **Collect documents, including Medical, wills, passports:**
Copies and originals in waterproof envelope
- **Collect Tools to shut off water, gas, and electricity:**
Check condition and position tools
- **Check fire extinguisher for status:**
Check expiration dates and gauge

Potential Hurricane Watch Meeting

The Emergency Preparedness Team has recommended that if the National Hurricane Center issues a Hurricane Watch for our area we will meet that night at the clubhouse to discuss options and gauge how many of our residents are planning on either staying or leaving. With hurricane IAN, the HC police were asking for a list. If a watch is issued the attached signs (3) will be placed around LHV and we will convene at 6:30pm. If you have any questions see your zone leader.

Sheriff Grady Corner

New Scams & Shams

A couple of things to watch out for have popped-up on our radar. I want to make sure they're on your radar as well.

The first one has to do with fake text messages from Florida Sun Pass. These text messages generally tell the receiver that their vehicle has unpaid tolls, and they need to go to the Sun Pass website to clear the matter. However the website the text gives you is not the real Sun Pass website – it may look legitimate, but if you click on the link you would be opening yourself up to some major problems. The scam is categorized as a phishing scam which is designed to capture personal information from your phone.

Always be cautious about mail, email, and texts that instruct you to go to a particular website. Make sure the website you are going to are the real deal, and not some impostor.

Another thing to watch for is shady solar panel salespeople. Not all door-to-door salespeople are looking to rip you off, but some are, so keep your guard up. Attorney General Ashley Moody recommends that when you're hearing a solicitation at your home, take a photo of the home solicitation permit and photo identification of the salesperson. Also be aware of high pressure sales tactics.

Research the company before signing any contracts or exchanging any money. Look for online reviews of the company/contractor, and ask friends or family if they have any dealings with the entity.

Obviously, this goes for not only solar panel installations, but any kind of work for hire at your home or business.

Please share this information with your friends and family, especially if they are elderly. A lot of scammers like to target the older members of our community.

If you suspect a scammer has contacted you, report it to the Attorney General's Fraud Hotline at 1-800-9NO-SCAM.

If you are a victim of a scam, report it to the Polk County Sheriff's office at 863-298-6200.

LOOKED UNDER YOUR MOBILE HOME LATELY?

Missing or torn insulation and vapor barrier can allow moisture, mold and mildew to build up, and provide access to insects and rodents into your home!

Call today for a FREE Under Home Inspection

To our valued customers,

During the current times we wanted to let you know that we are taking as many precautions as we can to ensure not only our workers safety, but yours as well. We check workers temperatures each morning and have limited the amount of contact our crews have with each other. Our crews work in Tyvek suits with respirators which helps to ensure your safety as well as theirs.

As a company, we want your business and there is no need for any contact if you so choose. Our business is deemed an "Essential Business" and we are here for you when you need us. You can schedule your inspection by calling 1-800-681-3772.

Wishing you good health and safety,
The Florida Anchor & Barrier Team
